**Guestbook Entry:** I remember the winter of 1981 and all the snow and the snow ball fights with Bill. The state that Bill came from was to hot for snow! I also remember the music that would be played Police, Journey, April Wine, Phil Collins. Bill always be proud of yourself for what you have achieved in the Air-Force you have done really well. I have always been proud of you. I have always missed you since you left Heyford! I hope things change for you one day and that you will come back. Miss you Delta.

**Guestbook Entry:** I started going to Upper Heyford in the early Eighties. I met a great guy there called Bill he worked on the flight line and we really had some great times going to the NCO Club and he would come to Oxford at the weekend and I would show him around Oxford, the Colleges the Musuems and the pubs (The Grapes). When we went to London that was great going to Buckingham Palace and going to London Bridge and Tower Bridge and Soho and going to the pubs. But most weekends would go to the base and stay over wernt suppose to do that really, but it was good fun. Sometimes we would go down to the 3 horse shoes pub have a game of darts and pool which was good. I remember this pizza place on base, they done some of the best pizza. Still keep in contact with Bill he came back to England a few years ago and hoping he will come back to England again one day. Its sad to see Heyford now as it is, I went there in January of this year the first time in many years, and it is like a ghost town but everything basically still looks the same, went down to Lower Heyford and the 3 horse shoes is no longer there, that has been made into 2 houses now. I think Upper Heyford will be missed by many of us. Duane you have done a great job on this website of yours. Delta.

**Guestbook Entry:** I was at the 2130th Comm Sq, Croughton, (64-67) after extending six months for a consec o/s tour. If I hadn't always wanted to visit the UK, my prior eighteen months with the 1950th Comm at beautiful Wheelus AB, Tripoli, Libya alone would have made the UK seem like Heaven. Extended another six months toward the end of my tour. 3AF said no more extensions, so Col G went to South Ruislip and got me another six months then they cut me off in spite of my offering to re-up for an open-ended enlistment. Croughton was the ultimate assignment - check out my email address!!! I've been back to the UK TWENTY TIMES since 1967 and have visited the old base most of those trips, being given a wonderful reception in spite of ongoing security concerns. (I guess I look harmless.) I was in the Orderly House in Admin and I am in contact with Keith Spindler (Personnel) and Vance Shannon (NCOIC of Base Comm).

Season's greetings, folks!

Was in the RAF as FME and the station was called 'No 1 Parachute and Glider Training School' I started to do a Parachute course with 6 other RAF bods but only did 2 drops from a static balloon at Weston on the Green & one from a Dakota, then was sent out to Germany, on the Berlin Airlift. This is the 3rd attempt to contact someone from my time at UH. they say 3rd time lucky. Here's hoping.

I remember the roar of F-111s vividly and came in contact with a number of Americans via my parents at various different airbases. It was thanks to these American friends that I now reside on the other side of the atlantic, in Toronto, Ontario Canada. As I write this I'm in the UK again visiting family and drove by UH today - the first time I've been near it in more than 16 years - it was quite moving.

**Guestbook Entry:** I was stationed at Heyford from June 85 to June 87. I was part of the 20th EMS Metals Processing Shop (weld shop).  
I would like to hear from anyone that was in the shop at that time, SSGT Jim Day, Sgt Harvey (BUD)Hissner, SRA Todd Nielson etc. Also non shop personnel such as Rich Thomas (CRS), Laura (Naughty) Nottingham (AMMO) and anyone else in "the gang"  
I stumbled across this site almost by accident but what memories it brings back. I had almost forgot about the kabobs. I sure miss them now that I remember.  
While I was there, I was convinced I had to get back to the USA but now I look back and remember that my time at UH was great. Funny how that works.  
I just wish I could remember everyones names that were my "family" for 2 years.

Great site

the "Dinosaur".

I remember a wet night on "stand by", got called to the flight line, and forgot my pass, found myself spread across the hood of an MP vehicle then on the ground with a weapon pointed at me till they verified my ID, never forgot my pass again!!.

I married a British girl, and had to sell my Triumph 500 bike, we bought a 65 Impala, and when the gas lines got too long at Heyford bought a little Mini, that car was great on gas, but the engine would drown out sometimes in the rain, and there was a lot of rain!!.

I'll always regret getting out of the Air Force in 74, but they were not accepting prior service at that time, so I joined the Army, made rank quicker, and was able to retire in 20 years as 1st Sgt[E-8] after Desert Storm in 91, I enjoyed being stationed with 101st Airborne, but will never forget my time at UH. Great Memories!!.

We met through some friends, Sara and Bill Hunsucker, Bill worked scheduling aircraft maintenance, [e-7 at the time]. Clarence and I met 2 weeks after he arrived, and married 6 months later, he was a buck Sgt back then, he loved everything about England except the fog and the winding roads!! we lived in Banbury across from the train station, then moved to Southmoor near Oxford. Clarence got out of the Air Force in 74, then joined the Army, we did tours in Korea and Germany, Clarence lived in the barracks at Croughton at first, and used to take me to basketball games there, we saw Lou Christie at the airmans club at Heyford, and he would drag me to the club at Croughton cause he loved the food there!! He got caught in the stop loss program in 91, and spent 8 months with 101st Airborne in Kuwait and Iraq, scariest 8 months of my life!! He retired in 92 as a 1st Sgt [e-8]. We

We would come to Heyford for holidays as we had no real family and stay with the Tomlinson. On the third trip there for a holiday we went to bible school. and his teacher who's name was Miller adopted Kevin. and I was left with the Tomlinson's the bad part is I was told never to talk to Kevin again while he was on base. He was gone within the year and I've never seen him since. M/Sgt Miller left Heyford around 1960 I think they where from Texas. If anyone remembers M/Sgt Miller. Please let me know. I have mixed emotions about my time there, we had good and bad times, but in hindsight they always look a little better over time. I remember the people I met the most though and think of them always. One I remember is the late Jerome "Jerry" Green, we were together from our first day of basic training to the day we were discharged and I was the witness at his wedding, may Jerry rest in peace. I would love to hear from his wife. I would also like to know if these other people are reading any of these pages: Steve Fortelka, Jim Beckett, Ric Gill, Jim Englebrecht, Bob Barth, Jerry Fuson, Jim Thiele and two (2) Garys, one my crewchief and one who lived across the hall from me and crawled to the hospital one night with appendicitis rather than waking me up. I will always thank you for that Gary, I needed that rest. Oh and how could I leave out "Headly". It seemed to me that in a way we were all a little bit of family. I hope you are all doing well. I miss my friends Maureen Gowing and Michelle Osborne, in Cheltenham, the most though and I hope you are all in good health and doing well. I think of you always. It was some of the best years of my life. I got married in 1972 and we are still married. I made 2 trips back, one in 1984. A neighborhood kid was a Sky Cop then and toured the base with my sons, as we came to the UK for a family vacation. Went back in 1996 for a family visit. My father in law said Heyford was closed. I couldn't believe my ears so I went to see and man, it was SAD! I felt like a World War II vet. But as I peered through the closed gates, I could still hear some of the laughter we shared. To those who remember me will be surprised that I am now a 'Rev.' but God has a sense of humor! This is a great site and I will visit it periodically. All the best...

**Guestbook Entry:** I arrived at RAF Upper Heyford on 11 Jan 1973. At the time there was a NATO TAC/EVAL inspection going on. We were told we could not process into the base until it was over so we took our pay records which we hand carried back then to the finance office and drew advance pay and headed to London for the weekend. I was put on "A" Shift where I stayed during my time there. During the 2 years I was stationed there we had a lot of alerts due to IRA threats among other things. I met my first wife just one week after arriving at Heyford. Another airman wanted me to meet the girl he was going to marry (he forgot to tell her he was already married with several children). We went to the British Army Reserve club in Banbury where I found out she was in the British Army Reserves. Needless to say we were married on April 21 of that year. I have many,many fond memories of RAF Upper Heyford and the surrounding countryside and still correspond with some of my ex-inlaws. I would love to hear from anyone stationed there during those years or any of the many British people who I knew and have lost touch with.

Had many a great times at the nco club and the partys at the weekend well what can you say about those, they were just crazy. met a great guy Gary Poalini in 1984 he left Heyford 1985 and went on to his new base Plattsburgh and we lost touch so if you come across this Gary drop me a line.

Everyone would have a really good time there. I would like to find an old friend of mine Neil Bernklaw he worked on the flight line, and stayed in the doorms oppostite the Chow Hall, and was based at Upper Heyford from 1980 - 1982. I would very much appreciate any information as to where I can contact Neil. Many Thanks Debbie.

**Guestbook Entry:** It was really great to stumble across this page. Every now and then, I will sit and think about the four years I spent at Upper Heyford. I was a member of the 20th SPS then later 7320 SPG from 84 - 88. It seems to me I worked all flights at one time but a majority of the time I spent with the BOHICA flight. Bend Over Here It Comes Again!! I also did a stint with Law Enforcement after the bombing of Libya.

I was the originator of Upper Heyford's first Theatre Group which lovingly became know as The Harry Blacker Admiration Society after it's first production. I was also a member of the Choraleers, the base's choir group....I served as the Master of Cermonies for at least 2 Dining In/Dining Out's....I also competed in base level and UK level talent shows for Tops in Blues.

I made many friends while I was at Upper Heyford. Some were Air Force brats, some were dependents, some were from the UK, and some served right beside me. I miss you all. If anyone remembers me, please contact me. It would be great to hear from you. Take care and thanks for the memories.

I was assigned to the 20th Supply Squadron. I worked in Receiving, Pickup & Delivery, and also Warehouse #3 during my long three years there. At the time, most of us hated the assignment. We continually had exercises and went for long periods of time wearing our gas masks. Gotta love it now. It was always good for a short nap! I miss alot of things about the base and country. I miss those great times we had at the club,

the Brown Dirby (getting a taco pizza), to just hanging out and partying at the barracks. It's funny how many of us had state of art stereos back then. There always seemed to be some competition over who was going to buy a better, louder stereo! I miss going to London, Oxford and traveling around the country. I miss the friends and the friendships we developed back then. We were FAMILY. We were all in a foreign country, most of us single, being away from home for the first time. Wow, what an experience! I look back on the photos on the web site and am really disappointed in the sad state of the facilities. Our government had put some many dollars into the base, what a shame that it goes to pot! Well, if you know of me, or want to chat about the good old Heyford days, shot me an email at [mike@noftzgerfamily.com](mailto:mike@noftzgerfamily.com)

I lived in Kidlington for awhile before returning to the Trans Barracks just before I PCS'd back home. I made many trips across England driving rigs for Chief Clarkin's Heavy Equipment section. I sure do miss those times. If any body remembers me, feel free to drop me a line. Thanks, Ian

I leaved in the village of Syresham. If any other guest were there at that time would be interested in chating. I did go back to the area in 1995 when I took my parents to Wales for their 51st anniversary while stationed the NATO base near Geilenkirchen Germany. Found this web site very interesting and nice to see familur places again

I was assigned to the 20th SPS where I spent my 2 years on "A" flight. I've seen some familiar names on the duty roster (Spalding, Perkett, Barbour, Anderson, Gilroy, just to name a few). Kind of sad to see the old place looking all run-down and abandoned. A great time was had by many there.

**Guestbook Entry:** It is a sad day. I just read that the 55th FS is to be deactivated (AF Times Feb 3, 2003). The Fighting 55th has been with the 20th since 1930. And I believe that the 20th FW is unique in having its three squadrons 55th, 77th and 79th assigned throughout its history. Although, I'm 77th TFS its is sad to see our proud sister strike her colors.

**Comments:** This is an update and renewed entry which includes my new email address. I was with the 1st Aviation Field Depot Squadron(SAC) which was one of the units that reopened Upper Heyford after WWII. We arrived at "Upper Haystack" in 1951 while the US Army Engineers were extending the runways to handle B-29's, C-124's, etc. We went on TDY to Sculthorpe that winter(Brrrr!) and came back to Upper Heyford in the spring of '52. B-47's on TDY eventually replaced B-29's and 50's. I returned to the States in August '54, was discharged, and enrolled at the University of Missouri. I not only enjoyed working with a fine group of men in the 1st AFDS, but enjoyed the UK to the point where I now go back to visit relatives.
