I Started playing disco for the Top Gun Club in 1975. In 1977 AMF Disco was born and is still alive at RAF Alconbury today. We started the frist All-Niters when John Millingan was the club manager. After 30 years in the UK I am now at China LakeNAWS working in the commissary. I just want to say in all my years on this earth, there were none to compare with the GREAT Times spent at Upper Heyford. Would like to hear from anyone who enjoyed the All-niters and the fun times we had and the club and the BBQs and parties we had. One last note do you remember Frank and Charlie Ashbey?

Guestbook Entry: Thanks Duane, for this outstanding site! I came upon it while looking for info on The Three Horseshoes pub, in a moment of nostalgia, and I see everyone who has ever participated in living in that rare time in space, has the fondest of memories as do I. My ex husband (Eric Rivers) was a SP(20 SPS) during the 80's, and also played football against the Sky Kings when stationed at Mildenhall in the early seventies. (Great fun) I'm sure many of you remember him, and possibly me too. I operated a tax-free car sales office in Upper Heyford Village, and have many fond memories of Sandy & Sylvia and the 3 Shoes! Many of us British Americans have reunions every year. Some of you may remember Nate Harris and Freddie Galloway from the Sky kings, well Nate lives here in Vegas, and Freddie in Cal. When I get a chance I will share photos I have, but have changed my mind about visiting Upper Heyford next time I'm in England, 'cos it would be too sad to see it as a "ghost town", after it played such an important part in ALL of our histories. If anyone recognizes my name, or my ex's( we're still friends) please feel free to write.

Guestbook Entry: It's Monday at work and I have just found the site. It's strange as just yesterday my wife and I were riding around in the car taking photo's to make up some calenders to send to our American friends in the states. We ended up at the base and it is really sad to see what state it is in and I really feel I could not send some of the pictures as they are shocking. As a Brit! I feel ashamed that for example the Hospital is all boarded up and over grown yet the sign is still standing stating it was top Base hospital in the 80's and 90's. I really feel like takeing it down and saving it as I am sure someone out there who was at the hospital would like it in their front yard! To finish on if any one knows the whereabouts of Jeff Davidson ( he worked in the department that dealt with chemical fires in the 70's) or his good buddy Chip who lived in Banbury at the same time could they please pass my e mail address on. To all Americans, I for one miss you all.

Guestbook Entry: I have just moved into the Oxfordshire area from London and today went exploring my new neighbourhood. I stumbled across the Upper Heyford Base by complete accident really searching for a country pub for lunch. But upon discovering it I was facinated by it's vast size yet fairly secretive past. It lies amongst the quaint local villages with the nominous Heyford Park signage (almost as if it were a stately home)giving the only clue. The public straight road through the base gives a real strange errie feel now that the base has closed with the derelect stores and rusting baseball field framework etc. I started checking out the web for info when i got back home and found your site. Its a fantastic insight into what was there and why. I plan to try and visit the museum soon. RAF Upper Heyford should be preserved for its unique history. I'm just facinated that it's on my doorstep, I can't wait to find out more. All the best.

He took time away from his schedule (on a moments notice) and showed us around the old barracks area and the flight line, pretty much a complete tour of the base. What memories it brought back, and what a sight to see as it has been changed quite a bit. The test cell where I used to work is rusting away and I think will be
demolished in the coming days. I would like to give a big thank you to Don for his time and knowledge of the base and its history. If anyone gets the chance to go over and see the old base please look Don up he is semi retired and comes in 3 days a week and if you can catch him there he will be happy to talk and show you around.

**Guestbook Entry:** I was assigned to the 20th Transportation Sq from Feb 86 to Feb 88. What a great time we had. Vehicle Maintenance worked some long hours but when it was time to play we played hard. I remember fondly the parties in the dorm, the pub crawls, getting out and exploring all the site in England. It was one of my favorite assignments in my 20 year AF career.

Guestbook Entry: I was stationed at Upper Heyford from January ‘56 through the summer of that year. The only medical facility was the Dispensary, with hospital services being rendered at Burderop Park. I was the assistant scoutmaster for the Dependent youth, with T/Sgt Thompson the Scoutmaster. (his dad had been in the OSS). That summer, we helped open the summer camp in Shaftsbury, and I met the commanding general of Third Air Force, whose son was one of my dependent youth at the camp. As a result of that meeting, he had me transferred to South Ruislip as Trainer for the London Rocket football team.

**Guestbook Entry:** My Step-father,Tsgt E.L.Langley, 20th A.M.S. was stationed at Upper Heyford 1968-1973, along with my mother,a step-sister, two step-brothers, two blood brothers, a half-brother, and myself. I vaguely recall going to school in a quonset hut on Croughton AFB in 5th and/or 6th grade then, moving to Upper Heyford for 7th grade right across the road from the flight line. I loved it when the F-4’s and F-111’s would take off. The teacher couldn’t speak a word for a good 8 minutes and at times, my pencil would roll off my desk from the roar and vibration. We were shuttled to and from school via what was called luxury coaches, not a goofy yellow school bus. I attended all the Hadites'
football games on Croughton AFB against other bases like Mendenhall, Shape, and Lakenheath. As a family we enjoyed the benefits of the economical times to see movies at Croughton and Upper Heyford. (us kids got in for 50 cents a head) Gas was bought with ration stamps on base and I remember several mega-grocery trips to the commissary. (with 7 kids, shopping off base was out of the question unless we found bulk items!) We lived off base in a little village near Banbury called, Edgecote. It was Edward Courage's (of Courage beer fame) estate consisting of 25,000 acres. Lots of room for us wild yanks, as they called us, to run wild. I was tight with his son that was about my age, whenever he wasn't going to school "on the continent", as they say. I recall another large American family in nearby Chipping Warden, they were the Langston's. We left near the end of '73 as my step-father had in 23 years and was due to retire and I think it corresponded with the downsizing of AFB's in NATO. We came back to the step-father's home grounds of Georgia after having a brief stay at McGuire AFB. If any AF dependants or enlisted folks from that time sees this and knew our tribe or not, feel free to e-mail me, be sure and put something relative in the subject line. Lots of memories from that time. Thanks

Guestbook Entry: I had a lot of fun at Heyford, with 520 AGS Weapons Loading and British Formula 3 racing. Lived in dorm while waiting for my wife to be transferred from Sembach Germany, then we moved to Bicester (walked to Jay Kays market owned by my landlord John Kerrison who bought my house - at a big profit and low rent!). Enjoyed the pubs and grub. Oxford University's Colleges were OLD and creepy. Never got used to "Mrs Brain's Faggots" nor "Spotted Dick" (advertised as "the queen's favorite dessert"). The base fire department set me on fire for a publicity photo on the flight line (click my website to see this photo by Public Affairs, published in Autosport and Autosprint magazines). My wife was Superintendent and First Sgt at 20th Services Squadron.

Marlboro cigs were 52 cents a pak, or $3.65 a carton, albums were $6.95 at the Audio/Vidoe store and everybody had a kick @#$ system. How about the peace campers outside the fence, my buddy Mark (accidentially) ran over one of them going to work one nite. The movie Octapussy was in the making, and The Battle of the Falklands was in progress. And who can remember the busses and busses of beautiful British women dropped at the base EVERY friday evening. Women, beer and cig's. How does it get any better?? I was TDY there a couple times in the 90's with the USAF Reserves, BUT never had the fun and excitement that i experienced during my 2 year(long)tour. See everybody later,,, Jimih

Guestbook Entry: Dear friends,
The transition of the web site files to the new web host provider is now complete. It took roughly 3 hours to FTP (upload) more than 2600 files over the DSL connection. The only fall-out I see so far is the USAFE crest in the upper left corner of each page, and the "hits" counter at the bottom of the main page, both of which shall be easily fixed. The purpose for the change of web host providers is for more space and greater capability in development of our site. As of September 2004, the web site has been online for four years. This transition marks the end of the Phase I milestone and Phase II is now underway. More later.

Guestbook Entry: Great website. I'm impressed with the participation. I was a crew chief with the 55th "Blue" F-111 team from 1970 until 1972, and later assigned to AGS Job Control until 1974. What a great tour of duty. Especially just returning from Viet-Nam. Anybody remember Col. Galpin (DCM) or "Gator" Brown Msqt. 79th SQD. My family and I were given Sub-standard base housing in Aylesbury until on Base Housing became available. I had to drive 45 miles one way every day for 2 years in a 1965 Mustang. Fog, rain, and snow. Then we moved on base and I could walk to work to the Aircraft Maintenance Control Office. Had a great time at Heyford. Loved the constant ORI's, and Paydays were "Personal Days". I continued my Air Force Career after Leaving Upper Heyford until 1983 and our 4 years at Heyford were without a doubt the best. All three F-111 Fighter Squadrons were like a family and the support folks were equally involved in the family. We transitioned to the F-111's and it was tough and hard work. Typical Air Force work ethic got the Job done. I would like to say...
"THANKS" to all who helped me and my family have a great tour at R.A.F. Upper Heyford 1970-1974.

Guestbook Entry: What a great web site! For some unknown reason I typed in "RAF Upper Heyford" in yahoo web search and found your site. My rather poor memory has been refreshed quite a bit by reading the stories and seeing pictures of my first permanent duty station.

I was a Mental Health Technician at UH from 1982 - 1984. I remember living in the Hospital dorm (near the chow hall and women's dorm) early on and then had to move to another squadron's (AGS?) dorm so the hospital dorm could be renovated.

I was the local computer geek, having had a TRS-80 Model III computer, which I sold to another airman (from AGS?) for $500, then bought an Apple //e (for about $1600 via U.S. mail). At that time, computers were a sort of novelty and people would come to my room to play computer games and to listen to my large collection of "classic rock" on albums/cassettes played on my huge stereo rack system--quite a sight for a dorm room.

I have fond memories of watching movies at the base theatre with other hospital troops and taking the double decker bus into Oxford with the guys. Remember Speakeasy's, the pizza place? I still have their menu in one of the many boxes of "stuff" I have in the basement/garage.

I too remember the frequent base exercises. I "fondly" remember wearing a chem suit while carrying litter patients around and pulling guard duty in the snow, waiting for an inspector to try to sneak in and blow up our temporary ward (at Bicester, I believe). I remember being on ambulance duty, trying to find a quiet out-of-the-way place to park so the inspectors couldn't find us (they enjoyed "blowing up" our ambulances to limit our resources). Normally, we'd find a road-side food vendor and eat and sleep for a few hours.

I also remember going to the base pizza joint (don't recall the name), normally after a movie. And I remember putting on a uniform just to go to late night chow.

I remember strolling through Oxford University, looking at its many buildings and admiring its history. And of course, I remember taking night classes in the old buildings, seemingly about two miles from my dorm, which made for freezing walks in winter.

It is now July 2004. I’m married (September 2000) with two daughters (1 & 2 y/o) and am a full-time computer science student (it’s nearly time to jump into the job market). The years roll on and I have little or no contact with people I spent many good days with, but I do have fond memories that spring to the surface once in a great while. It’s a shame there are no yearbooks for our assignments—they’d be nice to peruse once in a while.

**Guestbook Entry:** My goodness people........ What a rush it's been reading all your entries and seeing the difference between your thoughts of Heyford now compared to "old days" Heyford...... you had a different tail to tell then......I remember being told that the UK was the largest aircraft carrier the USA had and you could not wait to get back to "the world"...... Oh yes and the ridicule I got for saying Vitamin instead of Vite-a-min!  

One thing we all do agree on though is what wonderful times ...... I meet people all over the world everyday and non of them seem to have experienced anything like the good times we used to have on and off base. Partying in the woods just off base and down by Ardley railway line....(Anyone remember DAn Neale, Ron Villane, Ben Rosenblatt, Mark Smith, William Dillard Higginbotham the Third?)  

I used to manage the 2 hour photo shop by the BX .... I was married to a Crew Chief called Ira Kest and I can remember when my husband and I first got together, it was illegal to have females in the dorms - well one night the dorm got raided and I was
unceremoniously locked inside his closet for 45 minutes .... the door was knocked but I was never found!

Ended up drunk after an all nighter singing rock songs in the bus shelter on Heyford at about 4 in the morning - Just waiting for a Bus with my girlfriends (Husband had passed out in his room) got picked up by the LE's so we sang rock songs in the police station on base and waited for my very annoyed Father!

I miss my friends and there were many....maybe someone reading this may remember names and be able to help me get back in touch...Hope so....

Lisa & John Field and baby Sean - SSGT LE

SP this time - think he used to be on "D" flight, called Sam Johnson - Tall guy with Ginger hair, drove a pick up truck - A white one.

I have forgotten so much .... names .... can remember faces though.

Jeff Kryzminksi used to live opposite Delbert Pole in building 500 opposite the chow hall! Oh yes and his little friend Jerry "Snake" Garner....Joe Henderson, used to consistantly play the Doors over and over again and if you were really lucky you might just miss his speakers as he sent them flying through his dorm room window ......

Sorry, reminiscing ....... any contact details or suggestions on how to find my lost mates please let me know.

Guestbook Entry: lived at croughton for a time while working at heyford. worked in the motorpool along side doug keith and gail rankins. we normally worked the swing/graveyard shift. i forget our supervisors name, but he was a black man who had about 10 children. [stationed there from 1970-1974] it was the best years of my life being there. I had so much fun. after living at Raf croughton for a short time, I moved to a house in banbury. what a town. i had my local pub, and was on the dart team. they even had a game called aunt sally. i played in the championships while i was there. but for the life of me, i cannot remember the name of it. It'll come back to me sooner or later. it was owned by a husband and wife- his name was Gerald and her name? a heavy set woman, but nice as could be. They had a son named Gerald as well. The fish and chips place was nearby- before you'd go over the bridge as well as the chinese takaway. Every young man should experience what us GIs went through during our tours. I lived next door to a family from [an indian country, can't remember which one] they were sssuper- they introduced me to indian food and i introduced them to ribs, burgers and fried chicken.

had a girlfriend while there. Her name was Maureen. The cutest redhead you ever did see. Major Barnhill was our commander. That just came to me. I am at a public library and my time is running out. I hope I can continue when I get home.

Guestbook Entry: My father was the deputy base commander at Upper Heyford in the early 70s. I believe it was 1969 and 1970. He was:
Lt.Col. Leon V. Kluttz
I have great memories of this base. Some of my best. My best friend was Tim but I cant remember his last name. We live near the back gate and right at the park with the slate rock fence. (My first stitches). Thank you for this web site. I did not recognize any pictures but I do remember our 2 years there.

Guestbook Entry: Well like most us that worked on the base I miss it. I went by about 4 years ago when I came back home and it was so sad to see it now with all the signs still up and nothing going on but you know what I could still hear the F111. I’ve meet some people that worked with me and Sue are now at Scott AFB in IL and yes where still married. I was saddened to here that Mr. Wilkinson from supply passed away. It would be great to hear from any one that worked with me Gary.

The personnel were all outstanding in the support of others when we were switching over from F-100's to the F-111E. Lived at #8 Reid Close in Banbury. Had a son born at Horton Hospital in Banbury on National Health. Would be interested in any 20th TFW or 20th AMS reunions coming up. After Heyford, I stayed in for 20 (Nov 85) and cross-trained into PMEL. Then became an instructor and retired as a CDC writer. Just recently retired from Raytheon Co. in Aurora, CO. I ran their Metrology Services lab there before I retired.

I was a radio op on a KC97 from the 509th BW at Roswell, New Mexico and brought the advanced party for our future TDY of 3 months from Jan 56 to May 56. B47s went to Upper Heystack and KC97s went to Lakenheath. Learned to pronounce Bicester (Bister) when I tried to get a train back from London. Visted after I retired in the 1980s and was there when the last items were being sold at the BX. The barracks I lived in for three nights (1955) was still there and I could recognize the second story NCO club above a mess hall. Great memory of people on my crew and some I met there at the club.</td>

Guestbook Entry:  I was at Upper Heyford from Dec 67 to May 71 ,first in the munitions section of the 66 A&E SQ. and then in the 320MMS after the 20TFW arrived. It was a strange mix with camera,avionics,and ammo guys in the same squadron but we had some great parties in the old brick barracks. Would like to catch up with some of the old crew:Jim Beck,Ken Brannock,Greg Moody,Bob Laughlin,Dewey Griffith,Ed Bardwell,John Burke etc. When we became part of the 320 MMS, I mostly worked nights or weekends in Munitions Control in the SAS area. I married a nurse from the Horton Hospital in Banbury and have been back to England many times since to visit family. Saw Upper Heyford last in 2002 and was amazed at the deterioration of the base. Going again this summer. This is a superb website Duane!

Guestbook Entry: Hi
I just heard about this website today from someone who was stationed at Upper Heyford. My dad was Mike Kenny and he was the head barman at the NCO club at Croughton. My dates may be a little off, but I think he was there from 1960 to 1994. Sadly he passed away just 6 weeks before he was due to retire in 1994. The bar in the NCO club is dedicated to him and is called 'Mikes Bar'. We spent many a great day at Croughton, for July 4th and numerous parties. I even stayed with a family on the base during summer vacations. I cannot remember their name. My dad made
some great friends whilst they were stationed at Croughton and saw many service men/women come and go over the years. Ironically he never visited the USA, but would have loved to visit me in Michigan where I now live. I would love to hear from anyone who knew or remembers my dad. He was the Irish guy who always had a smile!

While I finished school and planned our wedding upon his return, he went to boot camp and immediately got stationed at (I still can’t believe it) Croughton. He was with the 2130th Comm Sq and we stayed there from ’90 to ’92. Only time we were ever stationed with both our families for a time. His folks were at Croughton with the CSA civilian outpost. We were married in the church in my village of Syresham. I remember UH and Croughton as both the mischievous teenager and the adult Air Force wife. The NCO club, the Three Horseshoes pub, the Burger Bar, working summers on base, bagging groceries at the commissary after school for spending money, weekend trips to Oxford, concerts in Wembley and Donnington, all that stuff. Probably the best times of my life, and ones I’ll never forget. My husband and I and both our families have fond memories of those times and places. I wish the both the bases were still as they were then, it’s a shame to see that era gone.

Guestbook Entry: I was transferred from Chanute AFB to the 20th OMS in September, 1978. I was escorted off the bus and right into the middle of an exercise. (Welcome to England!!) I was an A1C and thrilled to bits to be in there. I made some wonderful friends and enjoyed some of the best years of my life there. I was heavily involved in the changeover of the AMS, MMS, OMS and FMS units in 1981. I completed all the paperwork involved with personnel transfers in and out of the units (APRs, LORs, OERs and so on). I bet my footprints are still on that flightline...LOL!
I still think of those days with alot of fondness, and have to admit that I do still miss all the hubbub of an active flightline.
Greetings to any of you who may have been stationed there from 1978-1981!
I'm grateful I had the opportunity to go and be a part of it.

   Guestbook Entry: A friend’s comments prompted me tp see what I could find on Upper Heyford. To my surprise, I found this page and its wealth of information. Too bad the base closed. So many young men (and women?) learned about life there, and maybe some TDY too.
It is wonderful to see that the base continues after we left and they sent those swing wing things there. It sounds like many of the same “recreational” cativities continued.

I was with the 18TRS from 1997 till they sent us to South Carolinia in 1970. What a wonderful time to be in England. I didn’t want to leave. In fact I was offered a position in London last summer and if life’s circumstances wound’ have stopped me, I would have jumped at the chance.

It is surprising that there is no 18TRS, the winner of Royal Flush, represented here. I still have over 100 pages to go so I may be wrong.

If any of you 18th guys are computer literate and still alive, feel free to contact me. I worked on the photo lab repairing your mistakes. Me and my friends hung around the Golden Cross. I had a great time and learned a lot about life and people.

Rich

Guestbook Entry: I would like to get in touch with any of the members of AMS photo troops who may have been stationed with me. I have a lot of memories from Upper Heyford. My first reaction upon arriving was of utter disbelief, I had just left a very modern Lowery AFB in Colorado and I felt like I entered a time warp. I soon learned to love the base and I even got used to the cold. I recall the "war games" we played, which we seemed to do for days at a time. I remember I had to "hit the deck" in the commissary and a civilian drove her shopping cart of groceries over my hands. Ouch! I lived on Croughton and several of us got together and went out to dinner at the NCO club on Croughton, we didn't have reservations, and we had to wait for hours for our meal. Good thing we had good company while they went to town to purchase our steaks. If anyone remembers me I would like to email you. I would love to hear that they finally completed that hospital that was under construction for years.

Guestbook Entry: I've stumbled across this website purely by chance & boy does it bring back memories.

Me & my best friend Linda used to visit Upper Heyford after we met 2 U.S Air Forces soldiers (Joey & Danny D) in our local night club in MK. They persuaded us to come to Heyford for a party the next weekend & of course we agreed & never looked back. Between the summer of 1992 - March 1994 we made regular trips there to party in the NCO club, eat the gorgeous pizza from the Brown Derby pizza place, eat the best doner kebabs in the world from the stand just outside the club, go to the base bowling alley, have mad American BBQ's doing beer bongs, made lots of friends & generally had a blast!!

My time at Heyford was so much fun & I can understand why people have so many good memories for this place. Going to Heyford made me & Linda what we are today & I wouldn't change that for the world. Linda now lives in the States & when she visited the UK last October (2003) I took her back to Upper Heyford for a trip down memory lane. It's like a shell of what it used to be & it's really sad, although the memories are still there. Reading through the entries in this guest book I guess a lot of people had as much fun as I did & that makes me smile &:o)

Thanks Heyford for all those times x

Guestbook Entry: I was stationed their from 1980-83 and again from 1985-89. I had a good time, made some good friends. I want to go back to the Uk for a visit, and take my wife to show her the nicest area known. I would like to here from some of the people of the 55th and the 42nd. Enjoyed your site, thanks..

Guestbook Entry: I was stationed at RAF Upper Heyford from 1977 - 1982 OMS Red & Blue section. I still go back every few years and can hear the "old ghosts" earth shaking roar (almost can see'em too!)I met my wife in the UK and we are still happily married, hence the visits every few years. Love to hear from anyone who remembers!! Remember Alerts / Black Flag???

Guestbook Entry: Happy New Year fellow Hefordites! Great site that improves with age. I was stationed at the "Haystack" from Jan 67-Dec 68 and loved every moment there, to include the miserable Paul Revere recalls. I also sowed my wild oats while there and the only regret that I have is that I left the best part of England behind. Spent 23 years in the blue uniform after leaving UH and could never make it back there. Maybe I can return
and revive some precious memories while there. Keep up the good work Duane
